

# Merger Update

## Your better digital banking experience is officially live!

As we continue systems integrations following our merger with Wings Credit Union, exciting updates are starting to come your way.

Launched earlier this month, new digital banking is the first of many benefits members like you will experience.

Members are already giving this upgrade a big thumbs up. Favorite features include the customizable dashboard, a smart design that means fewer clicks, and the popular one-stop credit and debit card management.

Whether you're a long-time digital banking user or just getting started, its clean design, custom alerts and convenient new built-ins are designed for busy. And backed by real humans.

To take full advantage of its powerful features, tour the videos, find quick tips and more at [Ent.com/upgrade](https://Ent.com/upgrade).

### Along with the digital banking upgrade, you'll also see our new Wings logo and colors in more places over the coming months.

- New exterior signs are already being installed at a few service centers and will be in place at all locations by the end of the year. Refreshing our service center interiors will follow through 2028.
- Early July, your monthly statement along with other forms and documents will include the new logo.
- Around mid-July, you'll start seeing the logo on the website, in digital banking, on digital screens in service centers and more.
- In August, you'll hear an updated greeting when you call in. And if your credit card is expiring in August (or later), the replacement card we'll mail you may feature our new design and logo.

**While our look is gradually changing, how you bank with us remains the same.** Your accounts remain just as they are. You can still use and reorder your checks. Likewise, your Ent-branded debit and credit cards remain valid and we'll automatically send replacements when they're close to expiring. If something changes in the future, we'll share that well in advance and guide you along the way.

Our name is changing to Wings Credit Union, but we're still your credit union. And we'll continue to put members like you before profits.

Employees got outside, celebrated and enjoyed some uplifting community vibes at the Juneteenth Freedom Walk/Run at our Colorado headquarters on June 17.
